

Schools Have Positive Environments

Generally, fourth grade students were in positive school environments, according to their parents, principals, teachers, and the students themselves.

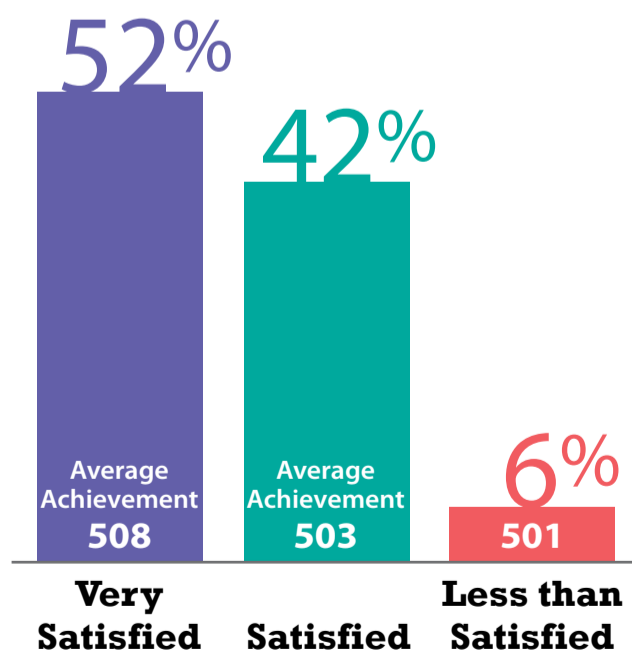

The majority of PARENTS are very satisfied with the performance of their child's school.

PRINCIPALS and TEACHERS agree that the schools emphasize academic success.

TEACHERS of fourth grade mathematics reported a high degree of job satisfaction.

Almost all FOURTH GRADE STUDENTS reported a positive sense of school belonging, and a higher sense of school belonging was related to higher average mathematics achievement.
